

Local Authority Building Standards Scotland [LABSS]

House Type Approval Certificate

 Certificate No:
 STAS/18/015/DM90/01

 Date:
 5 March 2019

Certificate Holder:

Springfield Properties Springfield House 3 Central Park Avenue Larbert FK5 4RX
E-mail: Jamie.Russell@springfield.co.uk

Tel: 01324 555 536

House Type Titles:

Description:
2017
Standards
CROY HOUSE TYPE

The domestic type approval has been assessed on the following drawings and specifications:

See attached annexe to this certificate

= 25.5m/s frame, at a height of 3m or less) 0.75 KN/m2
0.75 KN/m2
puildings? No
driven rain) grading, as defined in BRE Report – iding Risks, Second Edition, 1994, to be exposure i.e. coastal region) or de-icing salts? or biological factors – please specify any
applicable (refer to BS7543 for guidance) No

Conditions of certification:

- The design shown and the specifications and materials referred to have been assessed and approved in accordance with the Building (Scotland) Regulations 2004 and in accordance with the supporting guidance in the Domestic Technical Handbooks which came into force with effect from 1 July 2017.
- 2. The certificate shall be valid until invalidated by formal notice by the Local Authority Building Standards Scotland
- The design shown and the materials specified shall not be changed without reference to the Local Authority Building Standards Scotland responsible for certifying the system.
- 4. Where reference is made on a plan or specification document to any Code of Practice, British or European Standard or manufacturer's instruction it shall be construed as a reference to such publication in the form in which it is in force at the date of this certificate.
- This certificate should not be regarded as a formal approval under the building warrant process prescribed by the Building (Scotland) Act 2003 enacted from 1 May 2005
- 6. Bill Henderson Consulting Engineer Ltd Statement of Structural Adequacy STAS/18/015/DM90 1 to 4 referenced here under Section G, confirm that a structural appraisal has been carried out. Further site-specific information MUST BE made available when a site-specific building warrant is sought. Such additional information should take cognisance of Procedural Guidance on Certification including information to be submitted with a Building Warrant Application dated April 2010 Version 2. Confirmation of a holistic approach to structural adequacy of the entire completed building shall be provided by a registered engineer to the local authority within whose area the site-specific dwelling is to be built.

Local Authority Building Standards Scotland [LABSS] formerly the Scottish Association of Building Standards Managers [SABSM]
