

	House Type Approval Certificate		Certificate No:	STAS/14/043/DM44/07			
			Date:	18 August 2014			
Α	Certificate Holder:						
	Bellway Homes Ltd Scotland, E		Business Park, Cai		3 0QA		
	E-mail: ted.russell@bellway.co	o.uk		Tel: 01698 477440			
В	House Type Titles:						
	Description:	GLENCOE Timber Frame 2014					
С	The domestic type approval has been assessed on the following drawings and specifications:						
	See attached annexe to this certificate						
D	D Climatic conditions: The design may be built in areas where the climatic conditions are equal to or less than those detailed below:						
U	Wind: (as defined in BS 6399-2)	Standard effective wind speed, Ve = 24 m/s					
		For maximum effective h	•		24 m/ 3 8 m		
		Has funnelling been cons	-		NO		
	Wind: (as defined in CP3: Chapter V)	Design wind speed, Vs = (relevant to the building	frame at a height	of 3m or less)	N/A		
	Snow: (as defined in BS 6399-3)	Site snow load, So = Influenced by adjacent b		S	0.75 Kn/m2 No		
	Resistance to moisture/durability of exposed elements:	Max exposure (to wind c Report – Thermal Insulat 1994, to be exposure zo Exposure to sea spray (i. Other air contaminants o enhanced resistance if a	Iriven rain) grading ion: Avoiding Risk ne: e. coastal region) o or biological factor	s, Second Edition, or de-icing salts? 's – please specify any	Exposure Zone 4 No		
	Design Life: (per BS 7543 – Durability of buildings and building elements, products and components)	Category of building des Design life of primary bu	-		Unlimited Unlimited		
Е	Conditions of certification:						
	1. The design shown and the specifications and materials referred to have been assessed and approved in accordance with the Building (Scotland) Regulations 2004 and in accordance with the supporting guidance in the Domestic Technical Handbooks						

- which came into force with effect from 1 October 2013.
 2. The certificate shall be valid until invalidated by formal notice by the Local Authority Building Standards Scotland
 3. The design shown and the materials specified shall not be changed without reference to the Local Authority Building Standards Scotland Standards Scotland responsible for certifying the system.
- 4. Where reference is made on a plan or specification document to any Code of Practice, British or European Standard or manufacturer's instruction it shall be construed as a reference to such publication in the form in which it is in force at the date of this certificate.
- 5. This certificate should not be regarded as a formal approval under the building warrant process prescribed by the Building (Scotland) Act 2003 enacted from 1 May 2005
- 6. The Dougall Baillie Associates Statement of Structural Adequacy referenced here under Section G, confirm that a structural appraisal has been carried out. It confirms that further site specific information MUST BE made available when a site specific building warrant is sought. Such additional information should take cognisance of Procedural Guidance on Certification including information to be submitted with a Building Warrant Application dated April 2010 Version 2. Confirmation of a holistic approach to structural adequacy of the <u>entire completed building</u> shall be provided by a registered engineer to the local authority within whose area the site specific dwelling is to be built.

Annexe of drawings, certificates and specification documents used in the assessment:

F	Drawing Number:	Description:				
	GLENCOE TF 001 Rev B	GA's, plans, elevations and sections				
	TFb112/001 rev A	Timber frame layouts
